The Lerwick Lower Falls.
(For Annual Only.)
This is one of the two falls which are situated in the heart of the town, and which are known as the Upper and Lower Falls. The Upper Falls are also known as the Lerwick Falls. The water is taken from the Loch of Clickimin, which is situated about a mile to the north-west of the town, and is conveyed by means of pipes to the reservoir, which is situated on the hill behind the Upper Falls. The water is then conveyed by means of pipes to the town, and is distributed to the various houses and shops. The water is also used for the purpose of driving the machinery of the various mills in the town. The water is also used for the purpose of driving the machinery of the various mills in the town.
